YOUR ULTIMATE CLIPBOARD WORKSPACE FOR SEAMLESS
PRODUCTIVITY AND FOCUS!

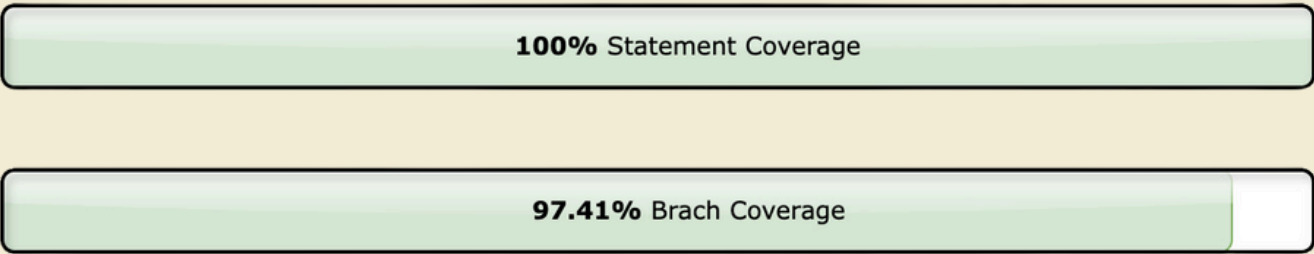

About Us

SimplyClip is your go-to productivity tool for research students and power users. It lets you seamlessly gather, organize, and prioritize text snippets across tabs—no more distractions or switching between windows. Save, merge, and export content effortlessly with features like text summarization, URL-saving, text search, and one-click exporting to CSV or DOC. Boost your efficiency and stay focused with SimplyClip!

What's New

- Improved user experience and UI
- Dark Mode
- Export options and data management
- Text summarization
- Cross-platform synchronization

110+ Test Cases

Milestones

1. Enhanced User Experience and Functionality: Fix dark mode, allow for reorganization of items and develop capability to highlight important text
2. Advanced Clipboard Management: Allow copying of images, searching across copied items and storage of website from which text is copied.
3. Intelligent Text Processing and Training: Develop functionality to label copied texts into URLs and YouTube videos, provide a word count feature for copied text, enhance training data for the summarization feature to improve accuracy.
4. Robust Synchronization: Improve overall functionality and data synchronization by implementing cloud synchronization for clipboard items.
