Saiteja Labba, Madhumitha Aravelli, Jaya Shruti Chintalapa

## About

SlashBot, your reliable Telegram companion, simplifies the task of recording daily expenses on your local system. With a touch of clever humor, it adds ease and efficiency to routine financial management.

## Objectives

- Effortless Daily Expense Tracking
- Humorous Financial Record Management
- Visual Spending Data Insights
- Collaborative Bill Splitting Made Simple
- Customizable Spending Record Edits
- Seamless CSV Export and Sharing
- Real-time Multi-Currency Expenditure Display

## Enhancements

- Expense History Review: Take a stroll down memory lane with a comprehensive view of your spending history, expense-style.
- Daily/Monthly Expenditure Summary: Get your financial status delivered with a side of charm, showcasing daily or monthly expenditure in a user-friendly manner.
- Spending Visualization: Transform your expenses into a visual masterpiece with detailed graphs and pie charts, making financial analysis more engaging.
- Multi-Currency Expenditure Tracking: View total daily or monthly expenditure in various currencies, ensuring your financial records speak many languages.
- Customizable Budget Alerts: Provide users with the ability to set budget limits for different categories and receive timely alerts when approaching their limits.

## Future scope

- AI-Based Expense Prediction
- Personalized Financial Insights
- Automated Bill Payment Reminders
- Expense Categorization via AI
- Collaborative Budgeting
- Integration with Investment Platforms
- Smart Savings Goals
- Financial Health Score
- Voice Assistant Integration
- Dynamic Currency Conversion
