BID BUY SELL

Welcome to Auction Sphere—the ultimate bidding adventure! Whether you're looking to score an amazing item or sell something special, you've landed in the right place.

Join the fun and get ready for a bidding war—your next treasure awaits!

Future Milestones

Auto-Bid Feature (Proxy Bidding)

Users can set a maximum bid limit, and the system will automatically place bids on their behalf up to that amount. This helps ensure they don't miss out on an item even if they are not actively monitoring the auction.

Buy Now Option

Allow sellers to set a Buy Now price, where buyers can instantly purchase the item at a set price, bypassing the auction process. This can be an attractive option for buyers who don't want to wait.

Auction Watchlist

Allow users to add items to a watchlist so they can easily track auctions they are interested in without participating immediately.

Mystery Auctions

Create mystery auctions where users can bid on items with limited information (perhaps just a few vague hints or a blurred-out image). This adds an element of surprise and excitement.

Auction Gamification

Implement gamification elements such as badges, achievements, or rewards for milestones like placing a certain number of bids, winning auctions, or making successful sales. This can motivate users to stay active on the platform.
