YOUR PERSONALIZED MOVIE COMPANION

ENHANCEMENTS

- **Dynamic IMDb Suggestions:** Real-time movie recommendations based on IMDb ratings, and trends.
- **Multi-Language Support:** Explore films from different languages and regions, making CineScout ideal for global audiences.
- **Surprise Me!** Get movie suggestions beyond your preferences, expanding your horizons.
- **Smart Binge-Watching:** Intelligent recommendations for sequels and related films to optimize binge-watching sessions.
- **Advanced Sorting & Filtering:** Refine recommendations with tools to sort by IMDb rating, genre, release date, and apply filters like director or content rating.

FUTURE SCOPE

- **Friend-Suggested Content:** Connect with friends, share watchlists, and discuss recommendations via MongoDB.
- **Gamified Movie-Watching:** Earn badges or rewards for trying new genres or watching a set number of films.
- **Interactive Quizzes:** Discover personalized movie recommendations through fun quizzes, enhancing user engagement.
- **Seasonal/Thematic Suggestions:** Get recommendations based on seasonal events like Halloween or summer blockbusters.
