About Me!

Dollar Bot is a Telegram bot for managing your finances, offering budgeting tools, expense tracking, and spending reports. It helps you analyze expenses with charts and create categories, all through easy commands

2

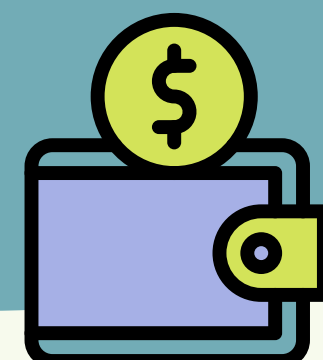

What's New??

- Implemented Checking and Savings accounts, allowing account switching before purchases.
- Track expenses and balances in multiple currencies (USD, INR, GBP, EUR, CAD, JPY) with customizable budgets and alerts for low balances or overspending.
- Enable downloading expense records in CSV/PDF and sending records via email in CSV.
- Conduct user studies, provide detailed documentation, and improve test cases.

Upcoming!!

- Manage expenses for multiple users - useful for friends and family
- Split expenses
- Upload and store Physical bills for reference
- Improve UI tied to the Bot to enhance user experience
- Adding some more options to talk with the Bot
