Group Members - Ananya Doshi, Riya Bihani, Vansh Dodiya

## About

Wolftrack6.0 is an online platform for the easy and efficient organization in your pursuit of internships and full-time job opportunities. This platform allows you to expedite your application process and track every step of your career path. It provides features to help manage job applications, deadlines and important documents (resumes). WolfTrack6.0 is your ticket to success, guiding you through the twisting paths of employment prospects with ease. This platform was created with the intention of helping anyone looking for a job or an internship. It may be a college student in any year, a working professional looking to switch or even someone trying to go into an industry for the first time.

- ## Future Scope
1. Web Scrapping for Recommended Jobs

Utilize Python libraries like BeautifulSoup and Selenium to scrape job postings from websites like LinkedIn, Indeed, Glassdoor, etc.
2. Send Reminders through SMS Notification

Include an option of providing contact number to receive SMS notifications based on interview dates and job deadlines.
3. Interview Preparation Resources Tab

Include a detailed tab for interview preparation resources including behavioural questions and questions tailored to specific roles.
4. Salary Insights and Comparisons

Use visualization libraries to show salaries for different roles based on factors like locations, job roles, years of experience.
5. Resume Template Editor

Provides users with an option to directly edit and make changes in their resume on the website.

- ## WolfTrack5.0
- Centralized Job Application Management

It centralizes all job application information, including deadlines, statuses, and documents, into a single, user-friendly dashboard. This eliminates the need to rely on various tools such as spreadsheets, email threads and notebooks. This makes the process more organized and less stressful.
- Built-in Deadline Alerts

Previously, users risked missing important deadlines without a reminder system to tell them of application dates and deadlines. With built-in alert mechanisms, it ensures users never miss application deadlines, providing peace of mind and reducing the chances of missing opportunities.
- Streamlined Resume Upload and Download

Some job applications may require different versions of resumes and managing as well as sharing them with potential employers could be difficult and hard to track. WolfTrack 5.0 allows users to upload, download, and store multiple versions of their resume seamlessly. This ensures that resumes are easily accessible and up-to-date.
- Comprehensive CRUD Operations for Applications

WolfTrack 5.0 offers full CRUD (Create, Read, Update, Delete) functionality, allowing users to easily add new applications, update statuses, and remove old or irrelevant entries. This elimates the need to manually manage applications with no structured way to edit, update, or delete job application records.
- Enhanced User Experience with Filter by Status Feature

The "Filter by Status" feature allows users to view applications based on their progress (e.g., applied, in process, offer received). This makes it much easier to focus on priority tasks and manage multiple applications efficiently.
