

Track-a-day

Your accountability partner for focused work!

About!

- Track-a-Day helps users efficiently manage time, tasks, and productivity.
- Create to-do lists and set timers to monitor progress.
- Receive hourly motivational prompts to stay focused.
- Take breaks with pause and stop options, and review the progress.
- Generate detailed reports to analyze productivity and review up to 30 sessions for peak working hours.
- Enjoy features like authentication, task archiving, and favorites.

What's new?

- Organize tasks with customizable tags, subtasks, and detailed descriptions.
- Set deadlines and reminders for time-bound goals and task management.
- Share specific task lists via a sharable link
- Track daily/weekly task completion stats and receive email alerts for pending tasks.
- 2FA for enhanced account security

Future scope

Platform Expansion

- Launch as a Chrome extension

Integration & Personalization

- Integrate with Google Calendar
- Offer a personalized user experience

Enhanced User Interaction

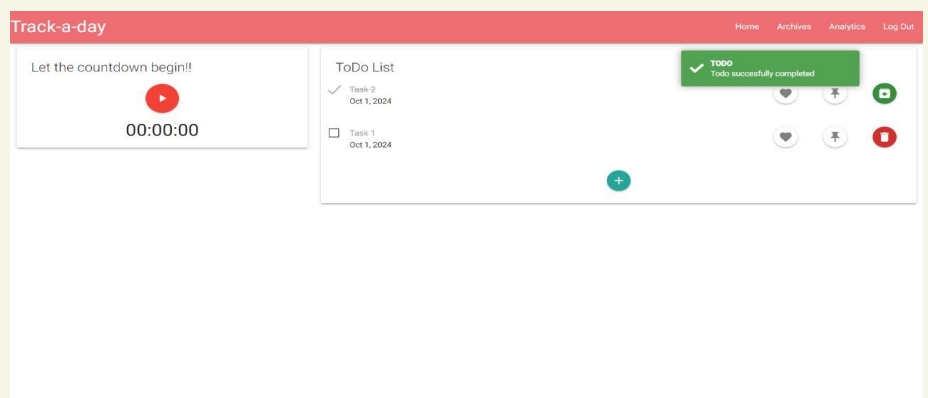

- Enable voice input for task creation and management
