

Applicant Tracking System

Organize your job search, stay ahead with smart tracking!

Tired of drowning in job applications, deadlines, and referrals? Say goodbye to the chaos of managing your career hunt with clunky spreadsheets!

ATS puts you in control – track every job you're eyeing, see where you've applied, and stay on top of rejections all in one place.

No more endless company searches—just enter your keywords, find the perfect roles, and add them to your wishlist with a click.

Improvements!

1. An interactive Personal Preference Details Quiz:

- Let us know about your preferences and we'll have your back in recommending the best for you!! The job preference quiz is a user-friendly questionnaire that helps individuals specify their career preferences.

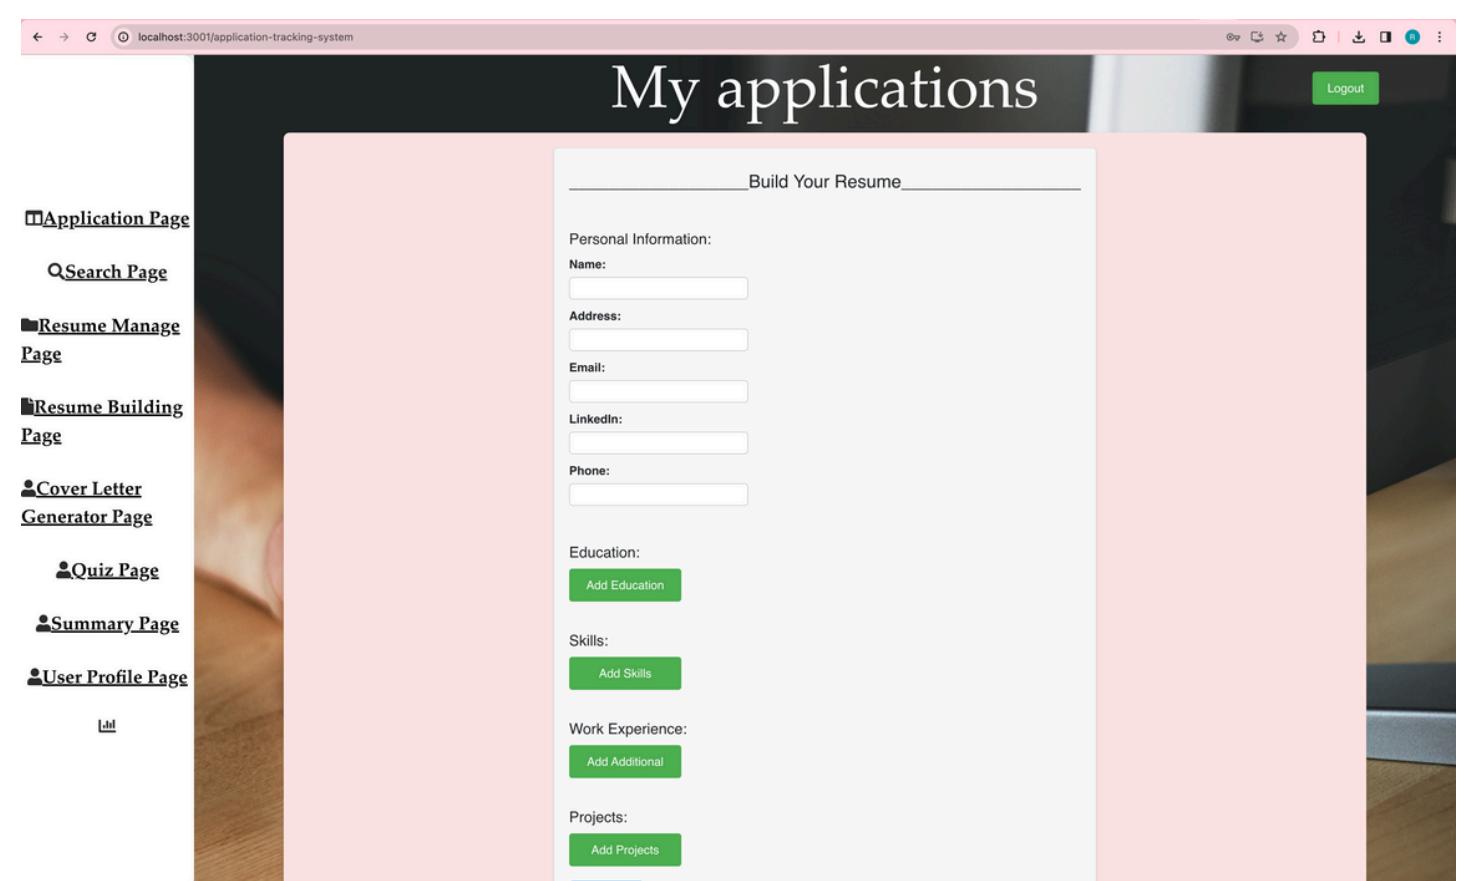

2. Personalised CV in seconds:

- Users now have the ability to effortlessly craft a striking and polished cover letter.

3. A fresh and new tab to set and meet your targets!

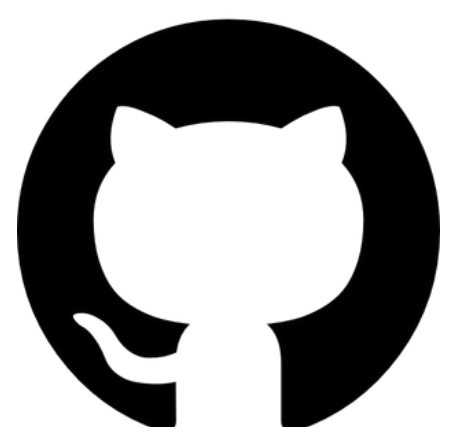

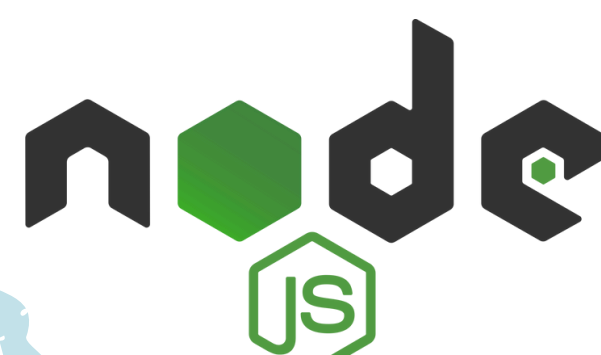

Implementation Milestones

- Milestone 1**
 - Enhance the overall design to improve the user experience.
- Milestone 2**
 - Add functionality that allows users to attach reminders to their Google calendar.
 - Incorporate notifications for upcoming deadlines.
- Milestone 3**
 - Improve keyword search to improve specifications such as pay range, employment location, and so on.
- Milestone 4**
 - Add a storage option for resumes and cover letters so they can be saved for future use.

Technologies Used

- Frontend: HTML, CSS, JavaScript (React.js)
- Backend: Node.js, Express.js
- Database: MongoDB
- Test cases: 0
