

Application Tracker

Track, Manage
Succeed!

Take control of your Job Search

Objective

- Simplify and streamline the job application process with a user-friendly platform.
- Track applications, manage deadlines, and organize profile effortlessly.
- Easily search for job opportunities and add them to your wishlist or applied list.
- Search for job roles, receive personalized job recommendations, and manage the entire application process visually.
- Stay on top of your progress with easy preference updates and organized tracking.

Methodology

- User-friendly UI
- **Integrated Job Search:** Users can search for roles directly from the platform.
- **Personalized Job Suggestions:** Jobs are recommended based on skills, experience, and preferred location.
- **Application Workflow Management:** Users can easily add, edit, or remove applications.
- **Interactive Visual Board:** Organize your application cards with tags like applied, rejected, wishlist, and referral

Testing

This test suite verifies key backend functionalities with pytest fixtures for test client and mock user data. With a total of 10 test cases, it ensures correct operation of core features like search and user authentication, covering CRUD operations for job applications and validating resume uploads via multipart form data.

Implementation Milestones

- **Improved UI:** A new smoother, adaptable interface for all screen sizes. Improved Location visibility
- **Improved Application Experience:** One-click Apply with visual insights, and filter applications with advanced filters-status, location, company.
- **Application Cards and Notes:** Moveable application cards and personalized notes for application progress.
- **Improved User Preferences:** Set experience, location, and skill filters for better matches.

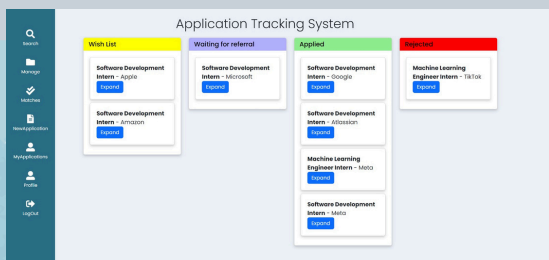

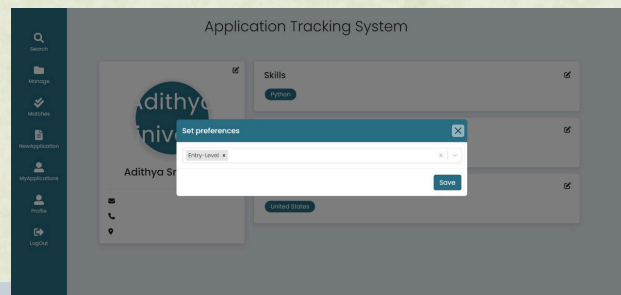

Future Enhancements

- **Deadline Reminders:** Get timely reminders for application and interview deadlines directly.
- **Calendar Integration:** Easily connect reminders to your Google Calendar for seamless tracking and scheduling.
- **Notification System:** Stay updated with notifications for deadlines and interviews.
- **Drag-and-Drop:** Effortlessly customize your app with drag and drop features
