

# TRACK MY DOLLAR

TrackMyDollar is a Telegram bot designed to help users track their income, expenses, and savings directly from their chats. It provides a user-friendly platform for managing personal finances, generating reports, and gaining insights into spending habits.

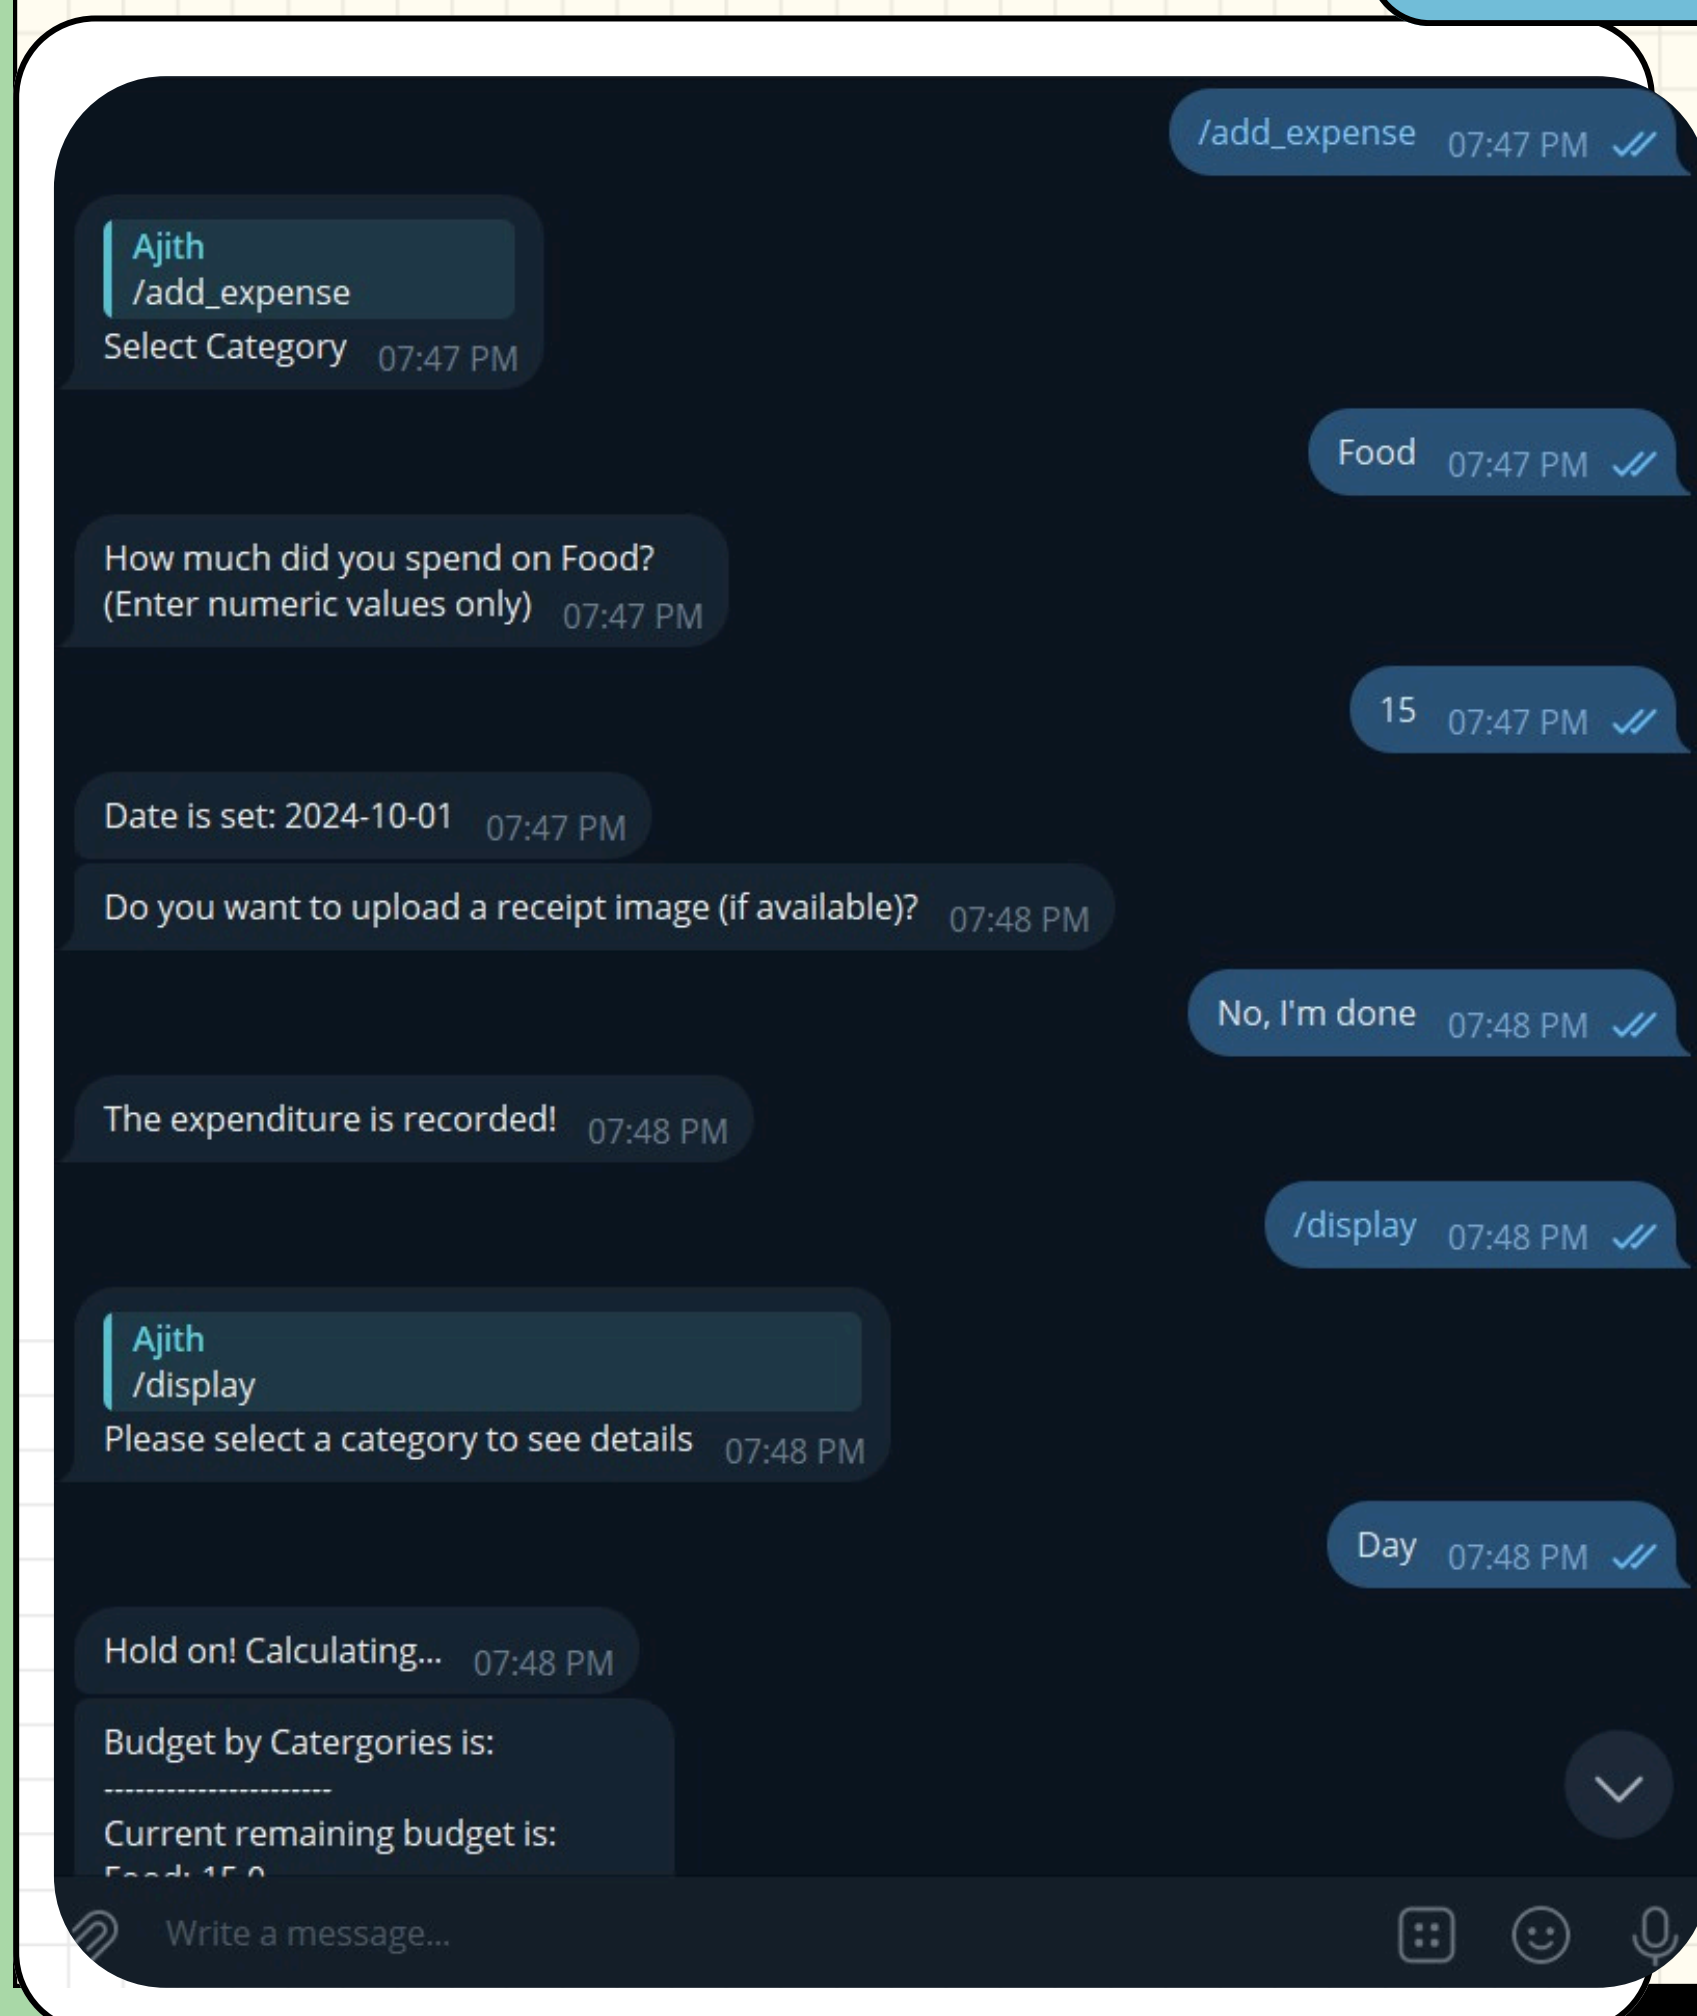

## WHY USE THIS SOFTWARE

- Easily track finances through a familiar Telegram interface.
- Instant access to detailed reports and spending analysis.
- Convenient budgeting without the need for a separate app.
- Customizable categories for better financial organization.

## INTERFACE

## FUTURE SCOPE

- Personalized Expense Insights – provide tailored recommendations based on individual spending patterns.
- Support for multi-currency transactions for global users.
- Enhanced data visualization and graphical reports within the Telegram interface.
