WolfTrack

Navigate your career with ease

WolfTrack is your ultimate tool for managing internships and job applications seamlessly. Streamline your process, keep track of deadlines, and receive tailored resume tips, all in one user-friendly platform. Say goodbye to scattered notes—start your journey to success with WolfTrack today!

WHAT'S NEW?

Centralized Application Management:
No more scattered notes or endless email threads. An all-in-one dashboard providing an overview of applications, statuses, and deadlines.

Version Control for Resumes
Keep track of changes over time and access the most relevant version for specific job applications.
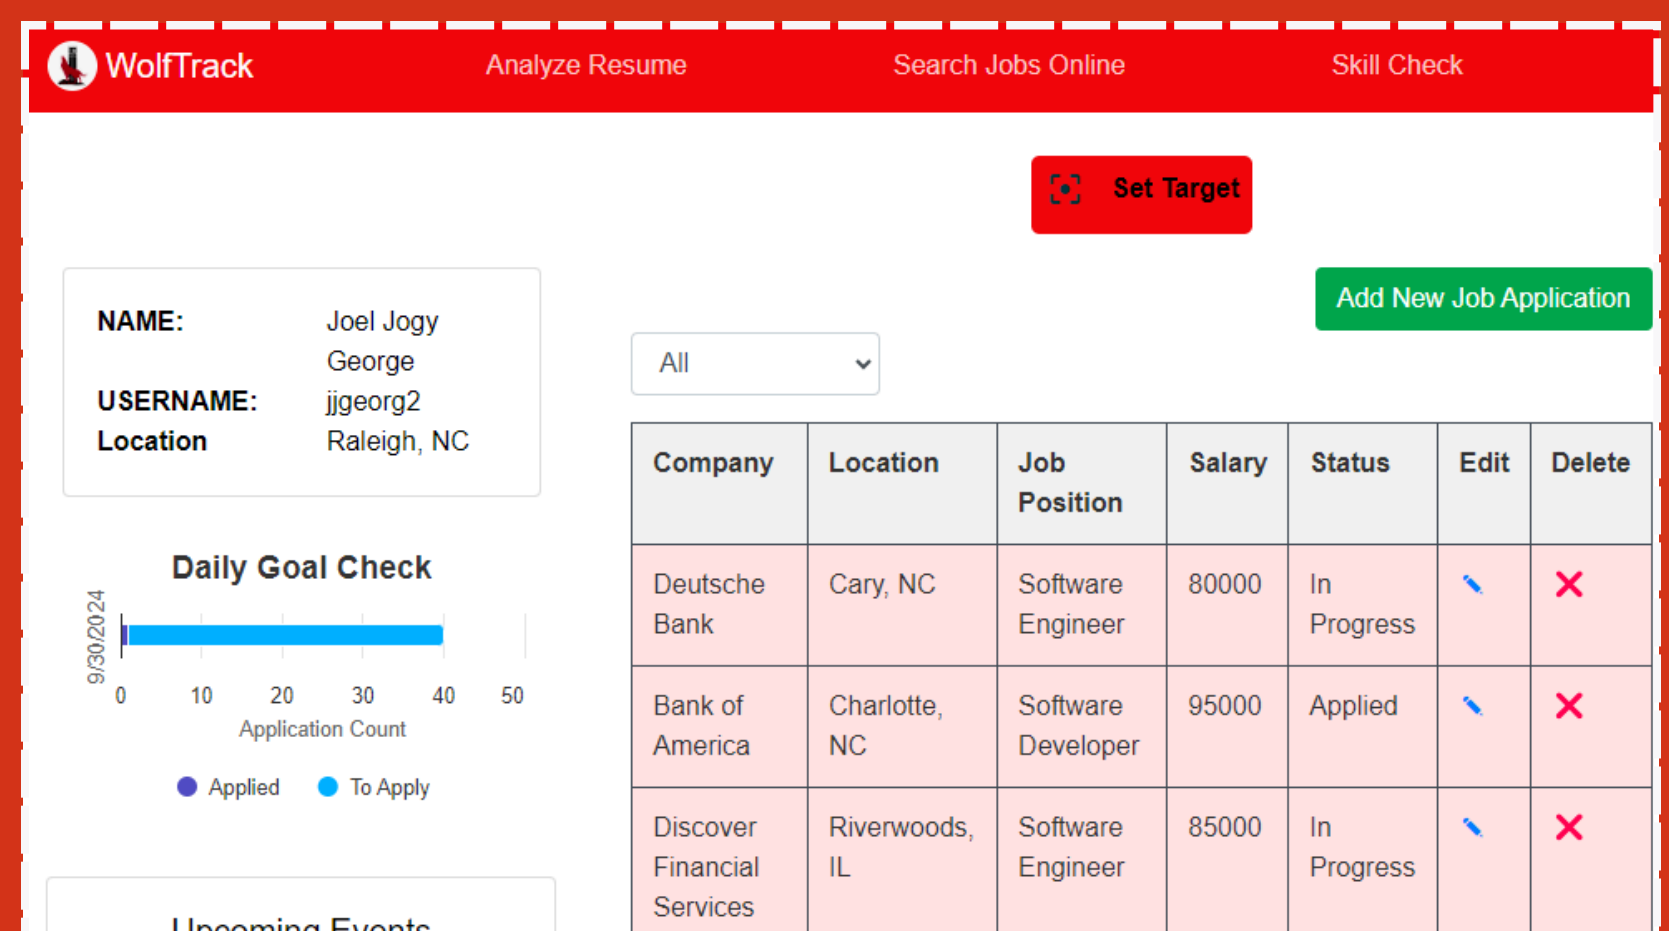

User-Friendly Interface
Users can quickly adapt to the platform, reducing the learning curve and enhancing overall satisfaction.

Customizable Daily Goals
Set personalized daily targets for job applications and track your progress.

Collaborative Resume Review
Admins can review, comment, and provide feedback on user resumes directly within the platform.

FUTURE ENHANCEMENTS

Smart Job Recommender
Research key job boards, create a reliable web scraper to gather job data, and integrate it into user profiles for more personalized and accurate job recommendations.

Secure Login Enhancements
Strengthen user account security with advanced measures such as implementing multi-factor authentication
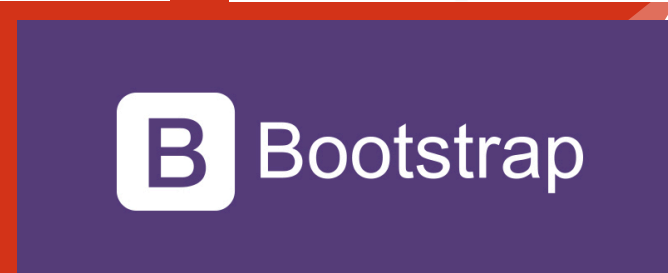

Custom Resume Builder
Develop intuitive editor for users to modify their resume directly from the platfform.

Expanded Testing Framework
Currently, there are **42** test cases in place. To enhance testing, add negative test cases for features such as user authentication and data input validation to ensure comprehensive coverage and robustness.
