MOVIE NIGHT - LET POPCORNPICKS CHOOSE FOR YOU!

Group12 Min-Ting Tu, Siddhi Khaire, Sidharth Shambu

Introduction

Are you tired of thinking about what kind of movie to watch?
PopcornPicks is a movie recommendation system! With a chat room, account, and review system.
API is used to grab the newest movie information from the TMDB movie website to predict the movies for users.
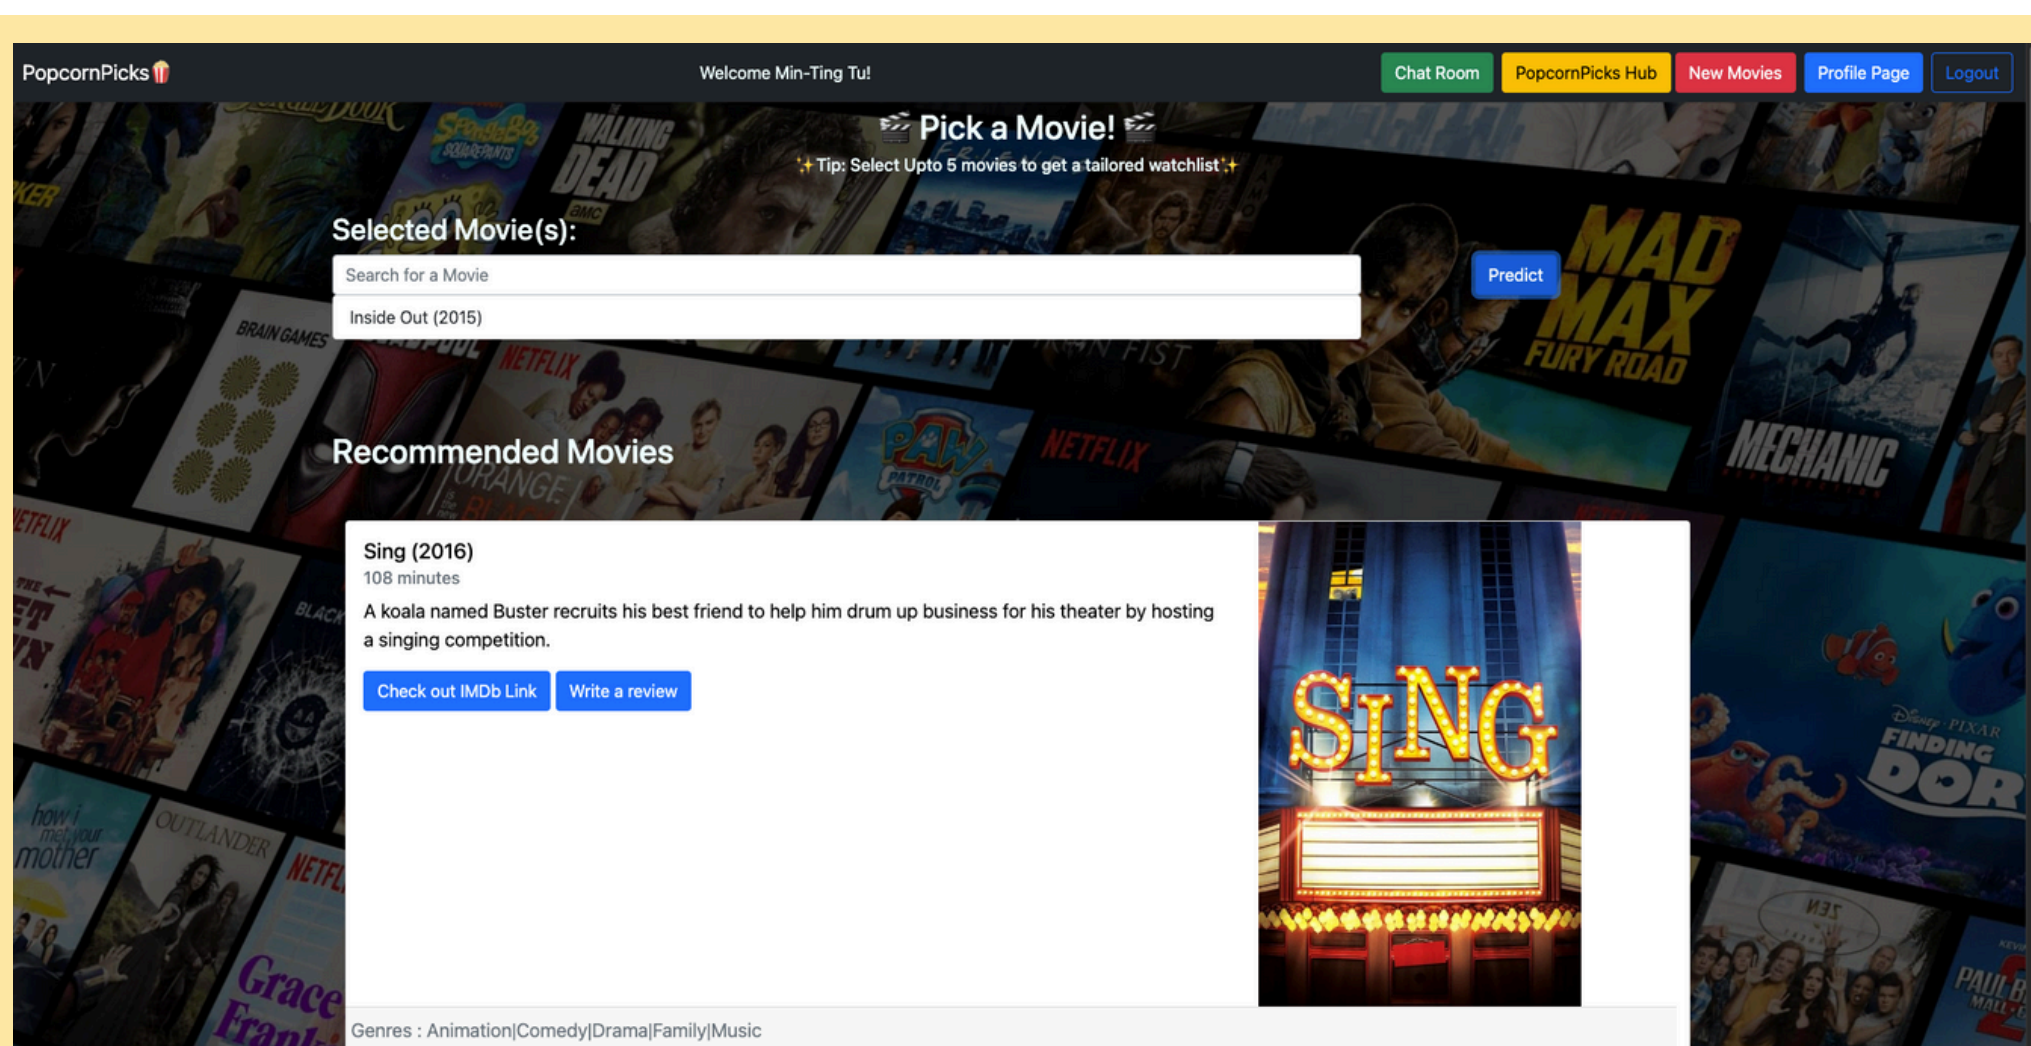

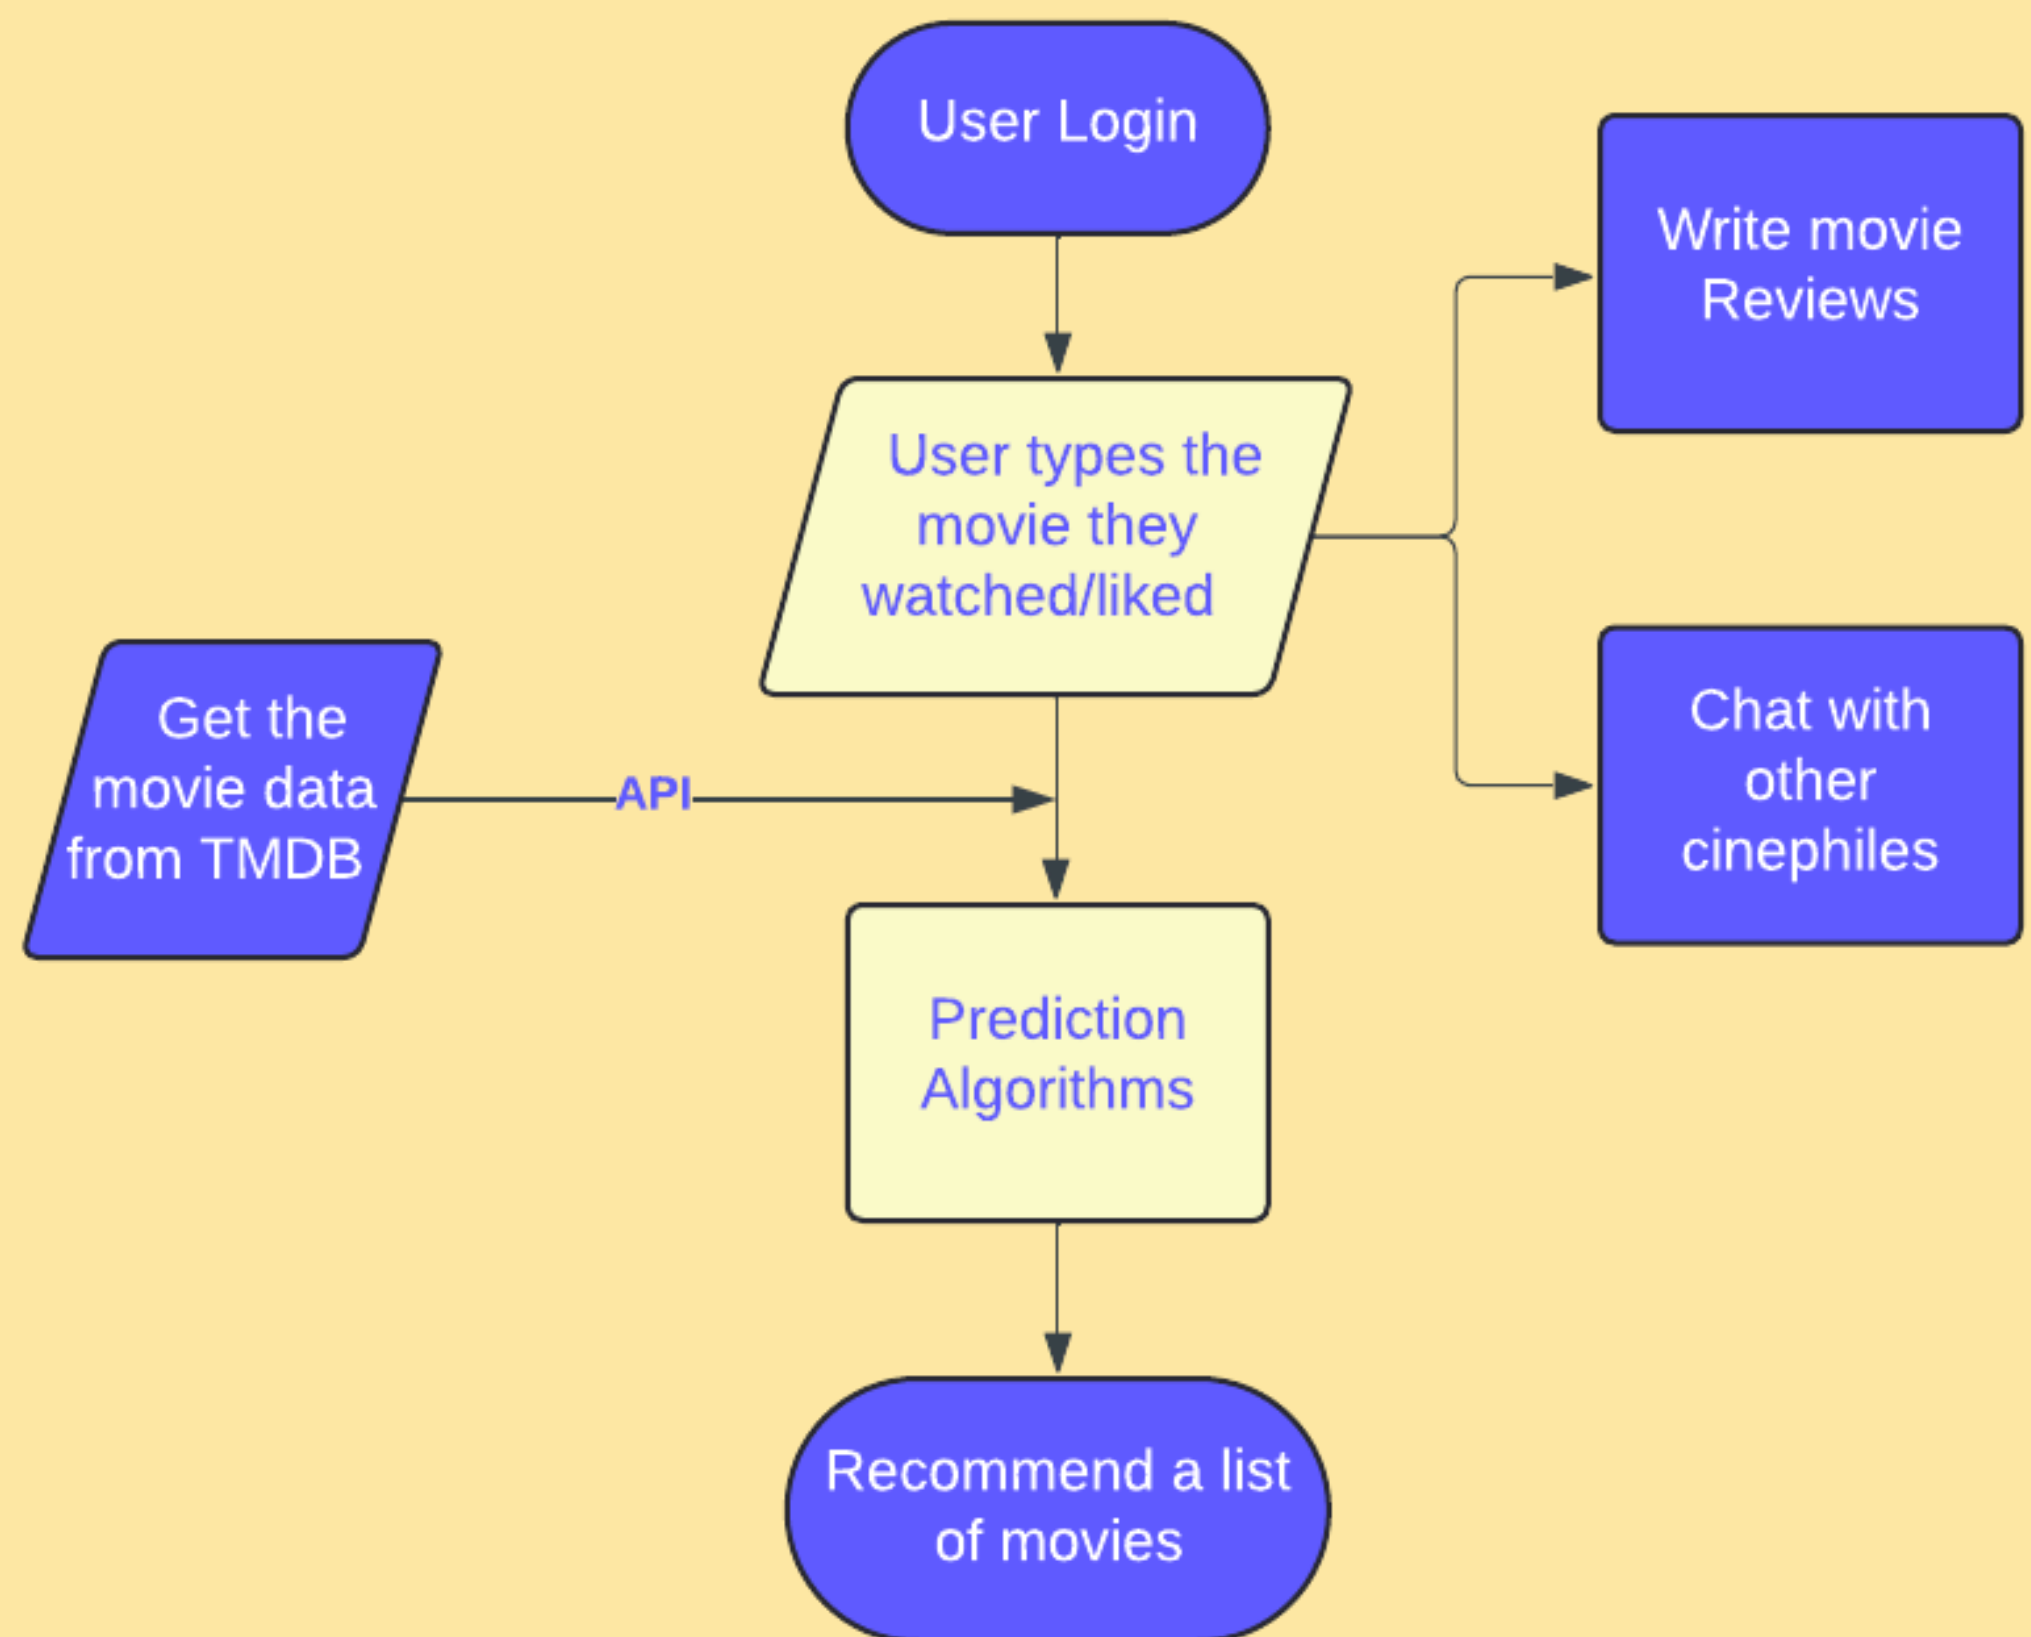

Enhancements

- Improved accuracy for the recommendation system
- Improving User Interface: New Movie Posters, User profile
- Fix some bugs
  - can not delete the chosen movie on searching page
  - Search page and user profile page use the same button
- Better chatting room

Future scope

- Integration with streaming services
- Email Notifier for new movies
- Scale for adding TV shows, anime and other media content
