TO-DONE

Introduction:

Meet "TO-DONE" — the to-do list app that actually helps you get stuff done! Sign up, log in, and start creating, updating, or deleting tasks like a pro. Share lists, get due date alerts, and color-code everything to keep your chaos organized. With quick templates and customizable options, you'll be checking off tasks in no time!

Future Enhancements

Social Login Add Google/Facebook login for easier, more secure access.

Export/Import Lists: Let users export/import tasks in formats like CSV/JSON for easy backups.

Gamification: Earn points and badges for completing tasks, with social media sharing.

Improved UI/UX: Make the interface more intuitive, responsive, and accessible, with refined color tagging.

Enhanced Notification: Add customizable email/push reminders to keep users on track.

Workflow of the Current Version

Faster User Registration & Login: Streamlined process with better error handling.

Enhanced Task Management: Quicker, more intuitive creation, updating, and deletion of tasks.

Expanded Template Library: More templates and customizable options for faster task setup.

Improved Task Organization: New due date alerts and color-coded tags for better task tracking.

Shared Lists : Enables real-time collaboration, a key feature missing in previous versions.

django

Test:

The "TO-DONE" test suite includes 30 test cases, ensuring functionality and stability across 5 key areas:

- **User Authentication**: Tests for login, registration, and form validation.
- **Todo List Management**: Covers creating, updating, and deleting tasks.
- **Template Management**: Verifies creating lists from templates.
- **Tag and ListItem Management**: Tests adding, updating, and removing tags/items.
- **Miscellaneous Features**: Includes marking items, retrieving by name/ID, and shared lists.
