  Start date: Sept. 26, 2024, 5:19 p.m. Due: Sept. 26, 2024

About

To-Done is an easy to use task managing system where you can create new tasks in set lists. Tasks are assigned a start date and a due date and can have notes and colors added to them. Lists are the organization tool used to hold tasks, and they can be organized via tags. Currently we have two dozen tests used to test our program.

What's New

- Notifications when a task is due or nearing the due date
- On-time metrics for completing tasks
- A comprehensive list of all upcoming tasks in the order that they are due
- Implementation of a priority tracker
- Default templates
