Flowchart

Login → Enter Product Keywork & Search → View & Filter Search Results → View Product Details & Compare Prices

- Add to Wishlist & Share via Email
- Redirect to E-Commerce Site
- Log Out

USER WORKFLOW

- **Login:** Users log in to access personalized features.
- **Search:** Enter keywords to search for products across multiple e-commerce sites.
- **View Results:** Browse, sort, and filter search results in a grid format.
- **Product Details:** View detailed product information and compare prices across platforms.
- **Wishlist & Share:** Add items to a wishlist and share it via email.
- **Redirect to Purchase:** Click to be redirected to the e-commerce site for checkout.
- **Logout:** Securely log out to end the session.

Future Scope

Social Media Logins

Allow users to sign up or log in using their existing social media accounts, such as Google, Facebook, or Twitter, making access quicker and easier without the need to remember a new password.
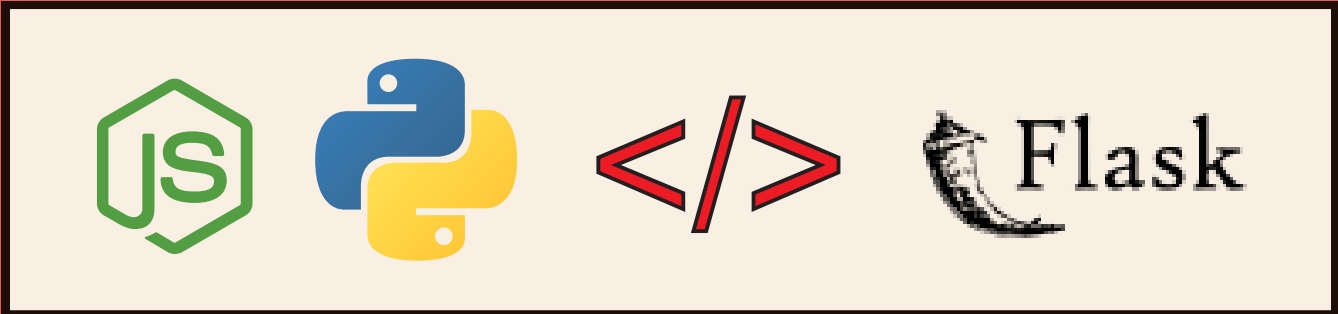

Browser Extensions

Create a browser extension that allows users to search for deals directly from any webpage or e-commerce site without needing to visit the Slash app.

Wishlist Collaboration

Allow users to share their wishlists with friends, family, or colleagues by generating a shareable link. Enable multiple users to add, remove, or comment on items within a shared wishlist, making it a collaborative shopping experience.

Price Drop & Restock Alerts

Allow users to set customizable alerts for when a product's price drops below a certain threshold or an out-of-stock item becomes available, with notifications sent via email to ensure timely updates and quick action on deals and availability.
