Dollar Bot

Overview

Dollar Bot is a user friendly telegram bot designed to simplify your daily expense recording on a local system effectively. DollarBot is your financial sidekick, available exclusively on Telegram. That means no matter where you are, it's there to assist you in recording your expenses seamlessly.

Whats new ?

Smart Notifications and Alerts: Notification feature to alert users about budget limits, unusual spending patterns, or upcoming bills. These proactive notifications will empower users to make informed financial decisions in real-time.

Social Sharing: Allow users to share their budgeting achievements or insights on social media directly from the bot.

Expense Budgeting: Allow users to set monthly or weekly budgets for different categories and provide alerts when they are nearing their limits.

Future potential

Integration with Financial APIs: Integrate with popular financial APIs to fetch real-time transaction data from bank accounts and credit cards.

Multi-Currency Support: Extend DollarBot's functionality to support multiple currencies, catering to users with diverse financial portfolios.

Cross-Platform Compatibility: Develop setup scripts specifically for Windows users to ensure a smooth and hassle-free installation process on this platform.
